

P14E

ELECTRIC PORTABLE CONCRETE INTERNAL VIBRATOR

For the highest compaction of concrete with the highest level of comfort and ease of use. The Lievers P14E internal poker vibrator is the preferred tool for the construction professional who needs high quality concrete compaction with the least of effort. This is because the Lievers P14E is well known for its **high compaction, light weight and long lifetime**.

P14E

Most important features:

- Lightweight double insulated CE approved drive unit, only 3 kg!
- Energy efficient, only 600 W, but powerful compaction nonetheless
- High compaction realised by pendulum system generating 12.000 vibration a minute with only 4000 RPM motor & shaft speed.
- Long lifetime is realised by induction hardened vibrating parts and high quality materials.
- Quick release connection of drive unit with hose realises fast changing of bottles and hose lengths without the need for tools.

Specifications:

POKER HEAD Ø	WEIGHT	VIBRATIONS	CENTRIFUGAL FORCE	AMPLITUDE	HOSE LENGTH**
mm	kg	per min	N	mm	M
Ø28	2.0	12.000	2.500	0.8	1.0-1.5-2.0-2.5-3.0-3.5-4.0
Ø38*	3.4	12.000	3.900	1.0	1.0-1.5-2.0-2.5-3.0-3.5-4.0
Ø45*	3.6	12.000	4.500	1.5	1.0-1.5-2.0-2.5-3.0-3.5-4.0

* Also available with rubber tip

** Hose length including pokerhead
