

P18Li

Battery powered poker vibrator

High performance concrete compaction poker vibrator with unlimited freedom of movement.

P18Li Battery Powered Poker Vibrator

Description

The P18Li is the next generation of concrete compaction pokers. It features a battery powered cordless lightweight housing with brushless electromotor driving our famous pendulum poker bottles. This design enables the operator to enjoy unlimited movement freedom and ease of work while still having an **incredible strong compaction power**.

Most important features

- Battery powered so no power cord for ultimate freedom of movement
- Very strong pendulum compaction
- Lightweight for high operator comfort
- Brushless electromotor reduces maintenance costs considerably

Specifications:

	P18Li
MOTOR	18V 450W - Brushless DC motor
VIBRATION/MIN	12.000 VPM
POKER DIAMETER	∅28 / ∅38 / ∅45
WEIGHT	2.25 Kg (Including Battery!)
BATTERY DURATION	30 Minutes (approximately 25 m ³ concrete compaction)
BATTERY CHARGING	Maximum of 75 Minutes
